Introducing Quick Estimator™ 2005

The most feature packed version yet!

- Are you spending too much time **estimating** projects with a poor success rate of closure?
- Are you losing money on too many jobs?
- Are you losing out on project opportunities because of your inaccurate estimating?
- Does your professional image need to improve with better client proposals?
- Is your current estimating software outdated, too difficult to use or lacking the features you need?
- Are you failing to track the actual amount of labor time and materials used on the job?

If you answered Yes to any of these questions then you need to take a look at **Quick Estimator™ 2005.**

Quick Estimator™ when setup for your business will save you countless hours and help you produce more detailed, accurate, and professional estimates that win you more profitable jobs. With powerful features like **Estimate Templates** and **Assemblies** you can create an estimate in minutes. Plus with over one hundred professional reports to choose from you will look good on paper to. **Quick Estimator™ 2005** goes beyond estimating with other powerful features such as Job Tracking, Daily Diary, To-Do List, Photo Gallery and much more. Plus it is fun to use; you will no longer dread estimating but look forward to it and enjoy it.

Quick Estimator™ 2005 is an easy to use yet powerful estimating, job tracking and project management program for small to medium sized contractors in any trade. It has many of the features of much more expensive programs, but at a fraction of the cost.

Check out the features list, download a short introduction video or view the online User Guide which shows hundreds of screen shots at www.quickestimator.com.

Quick Estimator™ 2005 is the smartest tool in the office!

Available in single and multi-user packages.
